narrate and explain from the point revealed by a "Rajat Shalaka". The aim of this tough contest is to revive the tradition as well as to sharpen memory of student.

## **6.3 SHASTRA CHUDAMANI SCHEME**

**Scheme for utilization of services of Eminent Literary Scholars in Campuses of the Sansthan, Adarsh Sanskrit Pathashalas and other State Government run Sanskrit Colleges and Voluntary Sanskrit Organisations.**

### **Objective**

The object of the scheme is to preserve the indepth study of various shastraic subjects in Sanskrit at the various centres where traditional system of Sanskrit education is being imparted to students. While in the ancient days, the system of education envisaged a full time association of the teacher and taught for a period of about 12 years minimum and they had enough time to cover the various intricate Shastraic subjects in all details and the students had the opportunity to acquire mastery over particular subject in a comprehensive manner. In the recent past, the modern system of education, having prescribed syllabus for a limited period with selection from text-books, has influenced the Sanskrit education system as well and as a result even Sanskrit subject where students are supposed to have specialised at the post graduate level, due to shortage of time available, there is no scope for teaching the higher texts in detail and in full. As a result the products of this system, though they are quite proficient in the basic tenets of their subjects are lacking in indepth and exhaustive knowledge of the higher treatises written in these subjects.

Soon after they passed out of the post-graduate level, domestic needs compel them to enter into a bread winning avocation. Out of such post-graduated we are now to recruit young teachers and lecturers and though they are very much interested in pursuing their studies further, they dont have the facilities to do so in the institutions where they are employed as a result, while these lecturers efficiently

fulfil their part of coaching their students for their respective examinations, they are not attending that eminence in their respective branches which their predecessors, 2 or 3 decades ago, were able to achieve. Their academic interest should not be exploited and their scholarly lacunae should be removed so that they will be better equipped to serve the cause and will be able to produce a generation of students who will be really mastering the respective subjects.

In order to achieve this objective, there are fortunately for us, a few old scholars still alive and physically and mentally alert and they may be usefully utilised for a few more years. They are not necessarily scholars with any university degree or qualifications but still they are masters in their own fields and there would not be any compunction on the part of the young teachers to study under their feet. They will be also adding to the academic atmosphere of the institution and will be readily available to clear the doubts of both the teachers and the taught.

### **Implementation**

Under this scheme, not more than two scholars in each of the Campuses of the Rashtriya Sanskrit Sansthan, Adarsh Sanskrit Pathshalas, Sanskrit Universities and one scholar in established Sanskrit Colleges run by the State Govt. or substantially financed by the State Govt. and Voluntary Sanskrit Organisation are normally appointed. Such appointments are made on recommendations of Grants in Aid Committee consisting of the experts on the basis of applications received through the concerned institution. The appointment so made is initially for a period of two years. An extension of one year may, however, be granted by the committee on the basis of specific report of the Head of the institution. An honorarium of Rs. 6000/- per month is paid to the appointed scholar.

During the year under report, 38 Shastra Chudamani Scholars were selected for appointment in different institutions.

### **6.4 VOCATIONAL TRAINING SCHEME**

**Financial Assistance to Registered Academic Organisations to conduct "Prayogic Prashikshan" to the products of**

### **Traditional Sanskrit Pathshalas/ Institutions.**

With a view to create employment opportunity for the traditionally educated candidates in some specialised departments, a scheme of extending financial assistance to registered academic bodies to provide short term orientation courses to the products of traditional Sanskrit Pathshalas/ Institutions was introduced. The subjects to be taught are Manuscriptology, Cataloguing, Paleography, Sanskrit Typing and Short Hand, Jyotisha, Karmakanda and Epigraphy etc.. These training courses are conducted for different short terms; normally for three to nine weeks. During this period, academic bodies may invite specialists in respective fields to give coaching to the students. Intending institutions are required to apply in a prescribed application form for holding any such programme. They have also to advertise the short term courses in the local news papers and invite applications from students who want to avail of it. There may be a normal registration fee of Rs. 5/- per student. Each student is paid an out of pocket allowance of Rs. 10/- per day for which he is given the training. The specialist instructor is normally paid an honorarium of Rs. 100/- per day.

Detailed applications are considered by an Expert/Grants in Aid Committee for making recommendations on merit.
