

Bauddha Darshan

Acharya First Year

Paper I

Course Outcome -

1st Sem

- The most important outcome is the introduction of Indian Logic System in general and Buddhist Logic System in particular.
- The Buddhist Logic as explicated in the treatise of Mokshakargupta relating to Pramana, Pratyaksha, Anumana, and so on.
- The knowledge of Logic as put forward by the celebrated Buddhist logicians, namely Mokshakarguta, Dinnaga, Dharmakirti, et al will be taught.

2nd Sem

- This paper is the continuation of Mokshakaragupta's text Tarkabhasha dealing with Indian logic and its tools.
- In this paper, the tools of Buddhist logic are explicated in comparison with that of Vedic logical tools.
- The rudimentary knowledge of Buddhist logic in particular and Indian logic in general will be authentically introduced to the students.
