

**Bauddha Darshan
Shastri Third Year
Paper V**

Learning outcomes -

5th Sem

- This paper is related to Nyayabindu of Acharya Dharmakirti that explains the philosophical concept of Pramana in a detailed manner. The philosophical concept of Pramana is very significant to understand the abstruse concept of Buddhist logic and philosophy.
- The Pramana as enunciated and articulated by the great logician Dharmakirti is put before the students in a meticulous way.
- The students will know the different aspects of Pramana, which is a logical tool to explain fact or facts as well as a theory or theories.

6th Sem

- This paper is also related to Nyayabindu of Acharya Dharmakirti in which the tools of logic, such as Anumana are explicated in a crystal clear way.
- The types of Anumana are stated and explained with a number of examples. It is extremely useful for students.
- The couple of types of Anumana, viz. Svarthanumana and Parathanumana are delineated, which is very valuable for students.
